Head East instead of North next time you fly into San Francisco International or Oakland International destined for wine country! A beautiful drive into historic California Gold Country leads you to the Amador County Wine region for a different wine country hospitality experience.

Check out several dozen of the Association's winery events starting in June and continuing through the summer months at, www.amadorwine.com and click on "events." All summer long they'll be hosting a wide array of wine-centric activities; food and wine pairing focus events, sensory evaluation exercises, art and musical entertainment all presented in Amador County's uniquely kicked-back & classy style.
