GUIDE & MAP

*Amador* Vintners

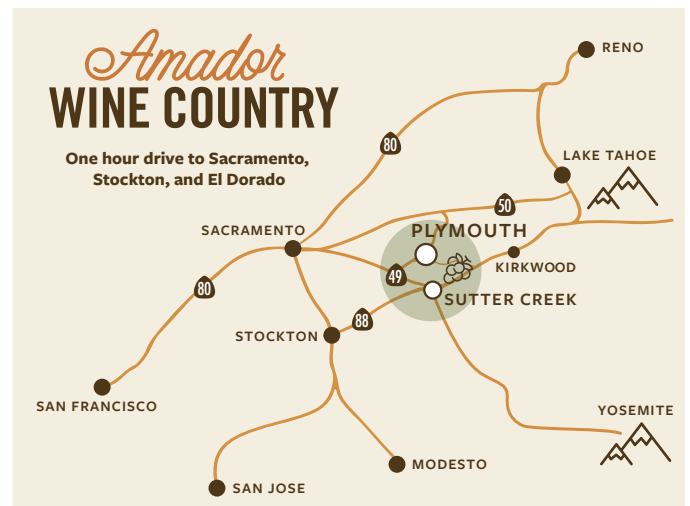

**D**ISCOVERY OF GOLD (1840s) IN CALIFORNIA'S Sierra Nevada Foothills attracted adventurers from around the globe. Newly rich pioneers spawned a bustling economy of hotels, inns, dining, and fine wine. Within two decades, more wineries were flourishing in the Sierra Foothills than anywhere else, creating California's first wine region. As the gold ran dry at the end of the 19th century, our Zinfandel vineyards endured, paving the way for new pioneers of wine, drawn by microclimates and varying mountain, volcanic and valley soils ideal for producing superior wines.

Home to more than 50 wineries, Amador Wine Country vineyards experience long warm days and cooler nights, creating a temperature differential of over 30°F – allowing grapes to mature slowly while developing deep, complex flavors in elevations varying from 300 to 3,000 feet.

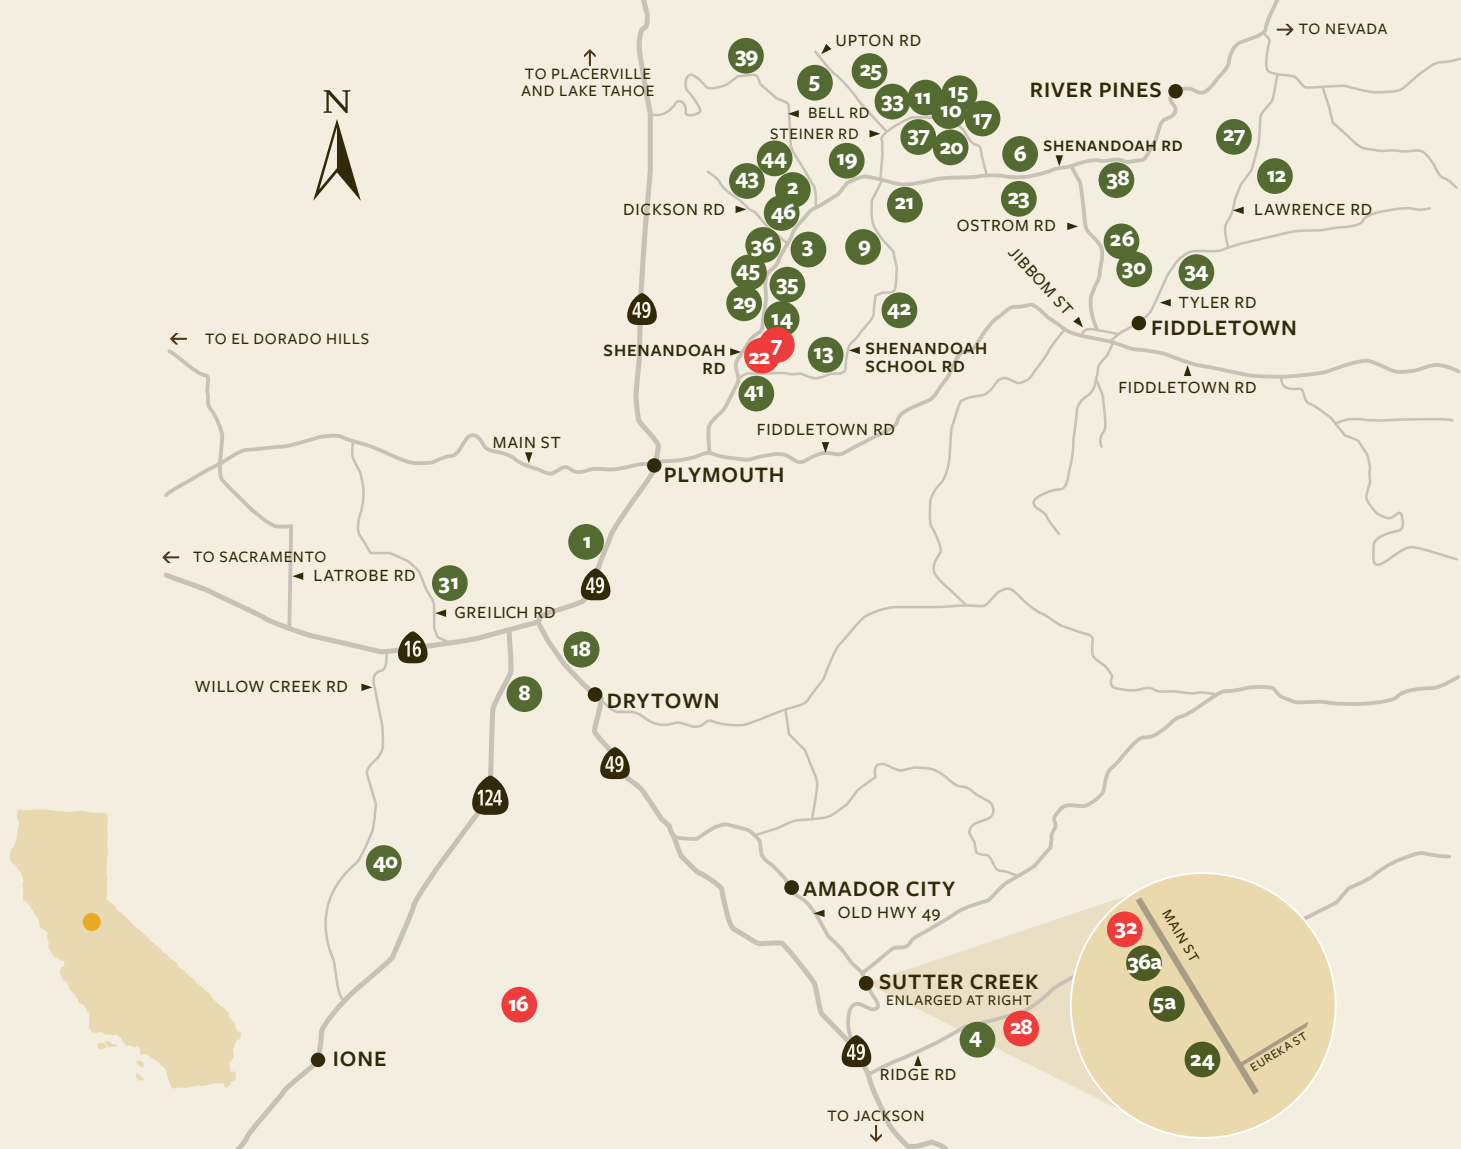

In the heart of the Sierra Foothills American Viticultural Area (AVA), vintners produce classic Zinfandels, many from ancient vines dating as far back as the 1860s. In keeping with the pioneering spirit of the region, over the last 40 years our wine makers have led the way in Italian, Spanish, and Rhône varietals thriving in the foothills, creating world-renowned Barbera, Sangiovese, Tempranillo, Syrah, Viognier and Roussanne (to name a few) allowing our guests to explore many of the world's wine varietals in one location without a passport! Today Amador County wineries produce more than 30 varietals in various styles and profiles, ensuring there is something for every palate.

Beyond world-class wine, visitors to Amador Wine Country enjoy the spectacular setting of vineyard covered hills against the backdrop of the snow-capped Sierra Mountains. Guests are welcomed into our tasting rooms with renowned hospitality delivered from our family-run wineries. If your travels allow for a longer stay, choose accommodations ranging from modern, fully appointed hotels, charming B&Bs or maybe an inn

Amador County sits in the foothills of the Sierra Nevada mountain range, placing us in close proximity to several metropolitan areas including Sacramento, Reno, NV, and Lake Tahoe. We are a short drive from cities in California's Central Valley and an easy getaway from anywhere in the San Francisco Bay Area. Our closest major airport is in Sacramento, about an hour's drive away. While a short drive from many destinations, Amador Wine Country is worlds away from the everyday.

that 49ers once called home. And what is great wine without great food? With so many options available you can take a culinary adventure in Amador where "farm-to-fork" has been part of our culture for more than 150 years. World-class wine, warm hospitality and distinguished history all in a spectacular Sierra Foothills setting... that's Amador Wine Country.

**AN ITALIAN CLASSIC**

Barbera may not have the name recognition as more common red wines, but it's often referred as "The People's Wine" in Italy. First planted in the 1880s, Barbera is the second most planted varietal in Amador County and one we love to call our own. The festival has cultivated newfound Barbera devotees who come from all over the world to celebrate this wonderful, little known varietal.
